PROFESSIONAL PROFILE

Analytical and detail-oriented Data Analyst and IT Specialist with over seven years of experience supporting business operations through data analysis, reporting, dashboard development, and process improvement. Experienced in transforming operational data into actionable insights that improve productivity, monitor KPIs, and support strategic decision-making.

Proficient in Microsoft Excel, SQL, Python, Tableau, and statistical analysis, with proven experience developing automated reporting systems, supporting operational teams, training end users, and collaborating with multiple stakeholders. Highly adaptable, customer-focused, and committed to delivering accurate and timely business intelligence solutions.

Open to relocation and international opportunities.
